

Point8 has a strong reputation for providing solutions to complex construction and event traffic management projects. We assist private and government clients in delivering infrastructure projects safely, cost effectively and with minimal impact local communities and the travelling public.

Our innovative, hands-on approach focuses on delivering safe and efficient work sites, both for construction workers and the general travelling public. Our extensive knowledge of construction traffic management solutions has been developed through several complex brown-field infrastructure projects in major urban areas in Queensland. Our staff have been embedded in project delivery teams including:

We are experienced in:

- preparation of project traffic management plans
- planning, staging, design, implementation and auditing of traffic guidance schemes and traffic control arrangements
- work site designs and audits for compliance with MUTCD Part 3 (or ASI742.3)
- worksite risk assessments in accordance with ISO:31000
- secondment of staff for onsite delivery of traffic management planning and supervision
- oversight and co-ordination of major traffic switches
- pre-tender project traffic management impact assessment and preliminary planning and stakeholder approvals
- tender preparations and preliminary planning
- worksite access management strategies
- liaison and negotiation with local community, road authority and government stakeholders
- review and liaison of traffic management applications on behalf of road authorities
- planned and unplanned event and incident management plans
- event parking supply and demand management strategies
- Bluetooth travel time monitoring of construction traffic impacts

- Clem7
- Gold Coast Rapid Transit Broadbeach Early Works
- Ipswich Motorway Upgrade D2G
- Mains+Kessels
- Moreton Bay Rail Line

"Point8 was an integral part of our team throughout the GCRT Broadbeach project, providing excellent service and innovative solutions. They continuously met time critical deadlines and exceeded our expectations."

Mitchell Wilton, Lend Lease

ABOUT US

Point8 is an independently owned professional services firm specialising in traffic engineering and transport planning. We provide expert advice and services to a wide range of public and private sector clients. Our objective is to add value to our clients' organisations and ensure the safe, efficient and sustainable movement of people and goods throughout the communities we serve. Our focus is on developing long term relationships with our clients and stakeholders by delivering exceptional service and best practice advice that considers both organisational objectives and community needs.
