

Point8 has extensive experience in transport planning, policy development and the provision of specialist advice to public and private sector clients.

We have a clear understanding of the broad requirements and complexities of transport planning and the need to balance private transport with active and public transport modes. Our focus is on providing fit-for-purpose solutions that achieve strategic objectives to promote sustainable travel behaviour, along with integrated transport and land use outcomes.

Our services include strategic transport planning, transport policy, precinct planning, master plans and public transport.

Strategic Transport Planning

Lead by our team of transport planners, Point8 can prepare:

- Multi-modal Network Plans
- Integrated transport and land use planning and advice
- Freight planning and advice
- Transport economics, feasibility and business case advice
- Corridor planning
- Road network planning, road classifications and hierarchies

Transport Policy

Point8 has delivered transport policy projects related to:

- Transport policy development, review and advisory services
- Integrated transport strategy
- Network modal plans and strategy
- Roadside and streets management policy
- Planning scheme transport codes and policies

Precinct and Master Planning

Taking a multi-modal approach, Point8 is able to prepare considered:

- Activity centre, precinct and local area transport studies
- Master planning and transport advice
- Accessibility and mobility plans, including pedestrian priority zones
- Stakeholder consultation and engagement
- Development services, including traffic impact assessments

Public Transport

Supported by our strong understanding of State and Local government requirements, Point8 can assist with:

- Network and operational service planning
- Public transport infrastructure review and advice
- Interchange design and reviews
- Bus rapid transit and light rail corridor studies
- Park and Ride strategies

ABOUT US

Point8 is an independently owned professional services firm specialising in traffic engineering and transport planning. We provide expert advice and services to a wide range of public and private sector clients. Our objective is to add value to our clients' organisations and ensure the safe, efficient and sustainable movement of people and goods throughout the communities we serve. Our focus is on developing long term relationships with our clients and stakeholders by delivering exceptional service and best practice advice that considers both organisational objectives and community needs.
